Area A2 - Locker Rooms and Fitness														
Area C - Tech, Conference & Admin														
Area D - Upstairs Fitness & Yoga														
													Project Complete	

Overview

Eagle Pointe Recreation Center is getting a facelift after serving the community for 30 years. This final project in the five-year capital improvement program includes a therapy pool, aerobics/dance studio and technology lab. The cardio/circuit/free weights area will move to the current gymnastics room (gymnastics programs will be housed at Bison Ridge Recreation Center), locker rooms will be renovated, family changing rooms will be added and improvements will be made to the lobby/front desk area, restrooms and administrative spaces. The upgrades will improve flow, increase spectator space and improve energy efficiency. Exterior renovations include new parking spaces, improved parking lot lighting, exterior entrance upgrades and a new roof.

Schedule

Interior construction began in February with completion expected by the end of the year. Work will be completed in phases to minimize impacts while maximizing the budget.

Impacts

The south entrance is closed until June; visitors can use the north entrance. The swimming pool will close May 25 at 5 p.m. Locker rooms, racquetball courts, group exercise rooms, gymnastics and 2nd floor cardio/circuit/free weights will close May 29. Options will be available at Bison Ridge Recreation Center and Paradise Island Pool beginning May 26.

What's Ahead - April and May 2018

Upcoming work includes: continuing renovation on south entryway, main lobby and lobby restrooms; continuing work on the new addition; site grading and excavating; working on foundation walls; and starting work on the therapy pool mechanical pit.
