

Bison Ridge Recreation Center

Five Projects. Five Years. One Penny.

In 2013, Commerce City's voters approved a 1 percent sales and use tax increase for new parks, recreation and road projects. The ballot measure was a result of a two-year, community-driven process to identify how to implement programs and services that address growing population needs, achieve vision and build a better Commerce City.

The sales tax increase is a dedicated funding source for the city's capital improvement program for new parks, recreation and road projects. Through participation from residents, businesses and city council, the City's vision of a Quality Community for a Lifetime is realized with improved mobility, greater access and increased recreational opportunities.

The new recreation center is one of five projects funded by the 1 percent sales and use tax increase approved by voters in 2013 to build, operate and maintain five projects over the next five years. The projects include:

- Three new neighborhood parks
- Widening of Tower Road from E. 80th to E. 103rd avenues
- New additions to Eagle Pointe Recreation Center
- Paradise Island Pool at Pioneer Park
- Bison Ridge Recreation Center
